PETITION FOR RULEMAKING

Chandler 67, L.L.C. ("Chandler 67"), by counsel, and pursuant to Section 1.401 of the Commission's rules, hereby requests the Commission to institute a rulemaking proceeding for the purpose of amending the TV Table of Allotments to allot Channel 67 to Chandler, Arizona, as that community's first local television service. Chandler proposes to amend Section 73.606(b) of the Commission's rules as follows:

Channel No.

City

Present

Proposed

Chandler, Arizona

67

No change in the existing allotments is requested. In support of this request, the following is stated:

The city of Chandler, Arizona, is an incorporated community with a 1990 U.S. Census population of 90,533. As of January 1, 1995, its population was estimated to be 115,600.¹ Chandler has its own post office and six zip codes.

As demonstrated in the attached engineering exhibit, the proposed site meets the minimum distance separation requirements with respect to all known licenses, construction permits, open allotments, pending applications, and pending rulemakings.

As stated above, the allotment of Channel 67 will provide Chandler with a first local television service, which will promote the objectives of Section 307(b) of the Communications Act of providing a fair, efficient and equitable distribution of television broadcast stations among the various States and communities. 47 U.S.C. §307(b). See National Broadcasting Co. v. U.S., 319 U.S. 190, 217 (1943) (describing goal of Communications Act to "secure the maximum benefits of radio to all the people of the United States"); FCC v. Allentown Broadcasting Co., 349 U.S. 358, 359-62 (1955) (describing goal of Section 307(b) to "secure local means of expression"). In addition, the proposed allotment will promote the second television allotment priority established in the Sixth Report and Order in Docket Nos. 8736 and 8975, 41 FCC 148, 167 (1952), of providing each community with at least one television broadcast station. The proposed allotment also will permit an additional network to serve the Phoenix television market. Therefore, the allotment will serve the public interest.

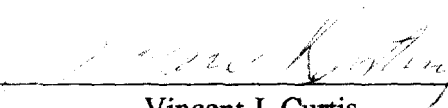

Contemporaneously herewith, the petitioner is filing an application for a construction permit for the new facility contingent upon the grant of the proposed allotment. In the event its application is granted, the petitioner will promptly construct the new facility.

WHEREFORE, in light of the foregoing, Chandler 67, L.L.C. respectfully requests the Commission to GRANT this petition for rulemaking, AMEND the TV Table of Allotments, and ALLOT Channel 67 to Chandler, Arizona, as that community's first local television service.

Respectfully submitted,

CHANDLER 67, L.L.C.

ENGINEERING STATEMENT IN SUPPORT OF A
PETITION FOR RULE MAKING
TO AMEND
THE TV TABLE OF ASSIGNMENTS

WES, INC.

DECLARATION

I, Pete E.M. Warren III, declare and state that I am a Certified Engineer, Class I, Senior, with Master Endorsement radiating and non-radiating, by The national association of radio and Telecommunications Engineers, Inc., and my qualifications are a matter of record with the Federal Communications Commission, and that I am an engineer in the firm of WES, Inc., and that the firm has been retained to prepare an engineering statement in support of a Petition to Amend the TV Table of Assignments

All facts contained herein are true to my knowledge except where stated to be on information or belief, and as to those facts, I believe them to be true. All Exhibits were prepared by me or under my supervision. I declare under penalty of perjury that the foregoing is true and correct.

Pete E. M. Warren III

Executed on this 22nd day of July, 1996

Narrative Statement

I. GENERAL

The purpose of this engineering statement is to support a request that the TV Table of Assignments be amended to add Ch. 67 at Chandler, AZ. The proposed channel has no short-spacing as can be seen by the channel spacing study. A contingent application will be submitted.

It should be noted that the area in question is within 320 kilometers (200 miles) of a US Border and, therefore, foreign concurrence is required.

II. ENGINEERING DISCUSSION

A. Proposed Site:

We propose a site located at the following coordinates:

Latitude: 33 18 30

Longitude: 111 51 0

The allocation may be within a wide area.

B. Channel Allocation Study:

Exhibit 1 is a Channel Allocation Study of Ch.67. The study indicates the required separation in kilometers to all known Licenses, Construction Permits, Open Allocations, pending Allocations, and pending Rule Makings

C. Public Interest Showing:

1. This would be the first allotment to Chandler, AZ. The petitioner believes that the requested channel addition is in the Public Interest and, therefore, should be granted by the Commission.
2. An additional station in the area would allow for carriage of a fifth network.

III. SUMMARY

Petitioner requests that the TV Table of Assignments be amended as follows:
